

Course ID:
BSO-NWPT.

New Worker Web-Based BSO Prerequisite (Online Web-Based Training)

COURSE OVERVIEW

This online course is a pre-requisite for new workers seeking to complete the regional Basic Safety Orientation. It includes a basic introduction to key legal requirements, safe work planning, hazard recognition and control at member sites across Sarnia-Lambton.

PROGRAM CONTENT

Online Prerequisite

1. Describe the role of the new worker
2. Recognize that new workers are at a relatively high risk of injury
3. Explain the general design and intent of Short Service Worker Programs
4. Describe all elements of regulatory training, "Worker Health and Safety Awareness in 4 steps"
5. Describe a typical day in the life of a construction worker at BASES member sites
6. Identify key roles, responsibilities and tools used for safe work planning
7. Describe the importance of incident reporting and emergency response procedures
8. Describe hazards, characteristics, health impacts, locations and controls that are common to BASES member sites including:
 - Chemical hazards including designated substances and other hazardous substances that may be found on local refinery sites (i.e., Asbestos, Refractory Ceramic Fibres, H₂S, Benzene, Silica, Lead, Mercury, Radiation, Nitrogen, etc.)
 - Physical hazards including thermal extremes, radiation, noise, vibration
 - Biological hazards including bloodborne, airborne, and waterborne pathogens, molds, animal-related illnesses
 - Ergonomic hazards and musculoskeletal disorders
 - Safety hazards including slips/trips/falls, confined spaces, working at heights, hazardous energy, vehicular hazards
9. Identify what is needed before arriving to the IEC training facility in Sarnia, ON
